

# The 27th Annual Angeles Crest 100-Mile Endurance Run

August 2-3, 2014

Angela Shartel on her way to  
the women's course record

SOUTHERN CALIFORNIA'S CLOSEST WINTER RESORT  
**mountain  
High** 

# Introduction

---

## Invitation

We are proud to host the 27th Annual Angeles Crest 100 for the fine men and women who have decided to compete in this year's event.

The catastrophic Station Fire canceled the 2009 Race, and was the second time in less than ten years we've had to cancel. This prompted us to reschedule our race date to avoid the fire season.

This fire has also irrevocably changed the mountains we know and love—the changes wrought by this disaster will be visible for a good part of the course. Time and the continuing work of the Angeles Crest 100 Trail Volunteers have joined efforts to restore and renew trails in the Angeles National Forest. Without the contributions of these volunteers and hundreds others like them, the trails that make this race would cease to exist.

In coordinating an event of this size, problems or unanticipated situations may arise. The Race has developed cooperative and amicable relations with various State and Federal agencies (CalTrans, Dept of Fish & Wildlife, and the US Forest Service for example) which have enabled us to keep moving forward.

We ask your patience as we work towards improving our race every year.

Thank you for your support,

Ken Hamada, Race Director

Hal Winton, Co-Race Director

Andy Morehead, Assistant Race Director

Gary Hilliard, Assistant Race Director

Jean Ho, Assistant Race Director

Bill Kee, Assistant Race Director

Nick Nudell, Medical Director

John Minger,  
Assistant Race Director/HAM

## 2014 Editor's Notes

The 2014 AC100 Race Book was created with the runner, pacer and crew in mind. We're continually upgrading the RaceBook with color and new info. Please note:

- New pacer rule for 65yr old+ runners
- Driving and parking restrictions

Jim O'Brien's 1989 record time will challenge you, and Angela Shartel's 2013 women's record raises the bar for the women.

The race finishes again at Loma Alta Park in Altadena. See pages 16-18 for details.

All this takes place in Southern California's dynamic natural environment. Long-term drought conditions are affecting the forests of the San Gabriels. Add human mischief as arson and chaos erupts.

In September 2002, two major fires ignited within eighteen days of each other.

The 2009 Station Fire consumed over 160,000 acres before it was contained, after over seven weeks of desperate efforts.

After each of these catastrophes, many hillsides and roadbeds slides occurred.

Currently, Highway 2 is open. The "Plan B" Detour Map is still in the book should conditions warrant.

*The Station Fire = cancelled 2009 race, as seen from Griffith Park, 25 miles SW of the blaze.*

Trail maps were originally drawn from the Tom Harrison map series: *The Angeles Crest Front Range*, and *The Angeles Crest High Country*. These are still the best reference sources available.

Every AC100 finisher is indexed by time and name, and are updated annually. Many of you will see yourselves in these lists.

Some of you remember the years when you didn't finish. But you came back the next year and made it right. This RaceBook is dedicated to you.

Yours truly,

Larry Gassan  
AC100 Race Book / Social Media Editor

2013 start, 0500, Wrightwood. Dominic Grossman, Jamil Coury and Ruperto Romero (far right).

**On Persistence and Determination**

“Press on — nothing in the world can take the place of persistence. Talent will not; nothing is more common than unsuccessful men with talent. Genius will not; unrewarded genius is almost a proverb. Education alone will not; the world is full of educated derelicts. Persistence and determination alone has unlimited potential.”

— Calvin Coolidge

The fun stopped a long time ago. Mile 59, Short Cut Aid Station, 2007.

# 1. Race Day Schedule

Rosa Melendez and friends. Mt Baden Powell, mile 18, 2013 Angeles Crest 100, August 3-4 2013.

## Race Weekend Weather

Expect plenty of heat for August 2-3.

All weather data drawn from:

<http://www.wunderground.com>

## Weather Data

|                   | Max High | Min Low | Average |
|-------------------|----------|---------|---------|
| <b>Wrightwood</b> | • 81°    | • 56°   | • 66°   |
| <b>Altadena</b>   | • 91°    | • 59°   | • 75°   |

## Sun/Moon

|                                  |          |          |         |
|----------------------------------|----------|----------|---------|
| Begin civil twilight             | 5:37 AM  |          |         |
| Sun rise/set                     | 6:04 AM  | 7:53 PM  |         |
| End civil twilight               | 8:20 PM  |          |         |
| Moon rise/set                    | 12:11 PM | 11:34 PM |         |
| Length of Day                    |          |          | 13h 49m |
| Length Of Visible Light          |          |          | 14h 47m |
| Moon Phase: waxing crescent, 37% |          |          |         |

## Race Distances

|                        |               |
|------------------------|---------------|
| <b>1986-91</b>         | <b>101.99</b> |
| <b>1992</b>            | <b>101.35</b> |
| <b>1993, 94</b>        | <b>101.08</b> |
| <b>1995</b>            | <b>100.90</b> |
| <b>1996 &amp; 1997</b> | <b>100.53</b> |
| <b>1998 on</b>         | <b>100.5</b>  |

Just so you know: Jim O'Brien set the record on the long course.

## Race Weekend: Schedule of Events

### Friday, Aug 1 in Wrightwood:

#### Wrightwood Community Building

- 9:00 a.m. – 12:00 p.m.
- Medical checkup.
- Drop bag collection: 9:00 a.m. – 12:00 p.m. (truck will pick up drop bags at 12:30 p.m. sharp)
- 12:30 p.m. – 3:00 p.m.
- Welcome
- Medical Concerns
- USFS Concerns
- Search & Rescue Concerns
- Trail Briefing/Slide Presentation

#### Wrightwood Community Building

- 6:00 p.m.
- Spaghetti dinner at 6p.m. at the Wrightwood Community Center. The dinner is sponsored by the Wrightwood Lions Club.

### Saturday, Aug 2 in Wrightwood:

- 4:00 a.m. – Runner Check-in at the Wrightwood Community Building
- 4:30 a.m. – Hal Winton presents the Invocation.
- 5:00 a.m. – Andy Morehead and the Wrightwood firefighters start the race. Go!

### Sunday, Aug 3 at

#### Loma Alta Park, Altadena:

- 5:00 a.m. – 24hr Buckle cut-off
- 6:05 a.m. – 2nd Sunrise Buckle cut-off
- 2:00 p.m. (sharp) Finish of race
- 2:30 p.m. – 3:30 p.m. Picnic and Award Ceremony

Ratio of starters to finishers, 1986-2012.

The Race is remarkably true to the original course laid out by Del Beaudoin in 1986. We now finish at Loma Alta Park in Altadena. The overall distance is still the same. You, lucky runner, get a final trail climb before hitting the blacktop to the finish line.

The initial Cooper Canyon section has been temporarily replaced by a road section awaiting the outcome of an Environmental Impact Report regarding the Mountain Yellow Legged Frog.

In '96, a scenic PCT trail section replaced the “death-march” road climb out of Cooper Cyn. A short (.85 mile) trail section overlooking Sulfur Springs replaced an asphalt grade. In '99 the AC100 Trail Volunteers built the “Winton Bypass” below Manzanita Ridge on Mt. Wilson, replacing a 16% grade ridge-run.

Everything else is the same as it was for the first 37 finishers in 1986.

It's all yours—go for it.

*Jorge Pacheco, frontrunner on 2003 Race Day.*

## 2. Rules And Procedures

---

*Tom Nielsen, Cloudburst Summit, 1999*

The AC100 Race Rules And Procedures are designed for the safety and well-being of everyone involved in the race; including runners, pacers, crews, volunteers and spectators. Failure to comply with these rules may result in disqualification of the runner.

### 1) Runner Responsibilities

The runner is responsible for knowing all the rules.

### 2) Pack Out What You Pack In

Do not use the Brown Bear-Proof Trash Containers. The future of the race depends on it.

### 3) Race Packet Pick-up

Only runners entered in the Race will be allowed to pick up their race packet. ID (i.e., drivers license) will be required.

### 4) No “muling”

Runners must carry all of their own fluids, food, clothing and other supplies needed for use between checkpoints.

### 5) No unauthorized aid, caches or drops.

No one is allowed to cache, drop, or store supplies on the AC100 course before or during the Run. Runners are not allowed aid between checkpoints. Crews are forbidden to leave aid along the trail during the run.

Do not use highway crossings at *Kratka Ridge, Pajarito, or Glenwood Springs* to provide aid to runners.

Runners whose crews and friends using the AC100 course and aid stations on race weekend for training runs will be disqualified.

### 6) No Course-Cutting

Runners must follow the marked course at all times. If the Runner departs from the marked course, the runner must return to the point of departure on foot before continuing. Cutting the course is grounds for immediate disqualification.

### 7) Checking In/ Checking Out Protocols

It is the Runner's responsibility to properly check in and check out of each checkpoint. Bib numbers must be clearly visible. You now

will be issued two bib numbers—for your hat and outerwear.

Congestion is a problem at crowded early-race checkpoints. Therefore:

- Entering the Checkpoint: Runner will say “Runner bib (XXX) entering!” to Run Official.
- Exiting the Checkpoint: Runner will say “Runner bib (XXX) leaving!” to Run Official.

### 8) Pacers

Runners may be aided by a Pacer starting at the Chilao Checkpoint (mile 52). Only one Pacer will be allowed to accompany each Runner between each checkpoint. Any runner 65 and older can have a Pacer for 100 miles. Any male runner 60 and older and female runner 55 and older, with at least 7 finishes, can have a Pacer for 100 miles.

Aid will be available for both the Runner and the Pacer. Both runner and pacer must receive their aid at the designated checkpoints. However, if a shortage occurs, Runners have priority.

### 9) If you want to pace

If someone wants to pace a runner, please let the Chilao (52 miles), Short Cut (59.3 miles), or Chantry Flats (75 miles) Checkpoint Coordinator know. They will keep a list of available Pacers. Out-of-state Runners who have come the greatest distance have priority.

### 10) Cutoff times

Cutoff times will be enforced at each Checkpoint by the Checkpoint Leaders. Their decisions are final, no exceptions. Cutoffs are listed at the back of this book. If you are not clear about cut-offs, ASK!

### 11) Highway Crossings

Safe movement of pedestrian and vehicle traffic is the primary concern. Vehicles have right of way at all times.

There will be a Run Official (flagman) at each highway-crossing checkpoint. The Runner is a pedestrian and must obey all Run Official directions; and all laws pertaining to highway pedestrian crossings.

### 12) If you decide to drop

If any Runner is unable to complete the Run, the Runner must notify a Run Official. The medical wristband (provided at the pre-race medical check in Wrightwood) must be surrendered. Upon surrendering the medical wristband, the runner is officially out of the race.

If Run Officials do not get the runner's medical wristband and the runner does not show up at the next checkpoint within a reasonable time, Run Officials will assume that the runner is lost and notify Search and Rescue. Leaving the race without informing a Run Official is grounds for disqualification.

### 13) If you get lost

If you get lost or injured, do not attempt to find your way cross country. STAY ON THE TRAIL AND WAIT. Wandering aimlessly, especially at night, will reduce your chances of being found.

### 14) Do Not Litter

Carry your trash or leave it at checkpoints. The future of the Race depends on it.

### Support Crews and Other Issues

Support crews are not essential. There is adequate aid station support along the course with water, electrolyte replacement fluids, food and medical aid. In addition, drop bags are allowed at all major checkpoints (see Checkpoint Chart, p 67)

**If you do have a crew, please note:**

- Many checkpoints are close to the Angeles Crest Highway (Hwy 2). Whether on foot

or in vehicles, crews must not impede highway traffic.

- Crews should carpool when possible to prevent traffic problems.
- Crews must comply with Run Officials directing traffic. Those who don't could get their runner disqualified.
- Only support crew vehicles are allowed in congested parking areas.
- Crews are NOT allowed at checkpoints marked "NO" in the crew column of the AC100 Checkpoint Table.
- No dogs allowed at any checkpoints or on the course.

### Checkpoints Closed to Crews

Mt. Hillyer will be closed to support crews. Absolutely no support vehicles allowed on the road to Hillyer!

Chantry Flats is the last crew access point over the final 25 miles of the course

***Newcomb's Saddle, Idlehour Trail, Sam Merrill Trail, and Millard Campground*** are closed to crew access. Use drop bags for flashlights, batteries and warm clothing.

### Drop Bag Service & Procedure

We urge runners to use this service. You get what you need when you need it, and using drop bags instead of crews helps minimize highway traffic.

***To insure that your Drop Bags get to the correct Checkpoint, please do the following:***

- Use only black "chisel tip" Sharpie permanent marker pens
- Drop Bag info must be on each bag: ***Name, bib number, & checkpoint.***

We use your bib number to retrieve your drop bag at each Checkpoint. When the bib number is not clearly visible, especially at the evening/night checkpoints, it will slow down the retrieval of your bag. ***Do not use ball-point pens, water-soluble markers, etc. THIS WILL ONLY SLOW YOU DOWN.***

Drop bags will be collected on Friday morning between 8 a.m. – 12 p.m. in front of the Wrightwood Community Building. Be sure that all bags are securely tied and labeled. Drop bags will then be picked up at 12:30 p.m. Friday afternoon.

Mt. Hillyer Trail, Newcomb's Pass, Idlehour Trail, Sam Merrill Trail, and Millard Campground Checkpoints are closed to crews but have drop bag service. Newcomb's Pass, Idlehour and Sam Merrill get cool at night. Warm clothing may be needed for these sections.

All drop bags will be returned to the Finish area. Don't bring your favorite t-shirt

or expensive clothing. Drop bags can get lost

### No Shuttle Service

There is no formal shuttle service to bring runners back to Wrightwood. Runners are responsible for making their own arrangements.

### Trail Marking

Trails are marked with yellow surveyor ribbon and biodegradable powder. Night sections are marked by glow-sticks in difficult areas.

Biodegradable powder will be used to mark the trail near campgrounds, since campers have been known to remove ribbons and glowsticks. Checkpoint Coordinators know about problem areas and will re-mark the trail as necessary.

### EMTs and the Volunteer Medical Team

The race is staffed by an all-volunteer medical team, led by the Medical Director.

### HAM Radio Communication

HAM radio operators will be tracking runners' progress at each checkpoint. Arrival, departure, and drop information will be distributed among Checkpoints and to a database at the finish area using integrated radio communications and computers. This system not only makes it possible to locate runners' positions throughout the race, it also facilitates emergency response.

### Medical Concerns: Dehydration

Dehydration is the most common medical problem for endurance runners. To monitor hydration, runners will be weighed at major medical checkpoints. Weights will be compared to the baseline weight on the runner's medical band taken at Wrightwood.

### Weight Loss

- If the weight is 3% below baseline, the runner will be asked to drink more.
- If the weight is more than 5% below baseline, increased fluid intake will be strongly advised. The runner will be re-weighed before leaving the checkpoint. It is the runner's decision to continue the race as long as they are within the cutoff.

### Hypothermia

Hypothermia could be a problem near Mt. Baden-Powell. Wear adequate clothing for the climb. Checkpoints before and after Mt. Baden-Powell (Vincent Gap and Islip Saddle) have crew access and drop bag service. Leave excess clothing with your crew, or in your drop bag that will be returned to the Finish Area.

*Jim O'Brien, a mile or so from Islip Saddle, 1989. Original photo by Stan Wagon, "Ultrarunning" editor.*

### 3. Race Course Description

#### Trail Descriptions

The following trail descriptions are designed to acquaint the runner and their crew with the AC100 Race Course. Certain areas that are accessible on training runs will not be available to crews on Race Day. Please make note of this.

#### Map Sources

The maps used in this book are simplified schematics from *The Harrison Maps*; *Angeles Crest: The High Country* and *Angeles Crest: The Front Range*.

Street and arterial maps are drawn from the Thomas Guide/LA County, and Google maps (google.com).

Harrison Maps are available at local outdoor outfitters, and direct. The Thomas Guides are widely available in bookstores and supermarkets.

#### Wrightwood

The race starts in Wrightwood, the picturesque mountain resort community. Located in picturesque Swartout Canyon at 6,000 ft. on the north slope of the rugged San Gabriel Mountains. Wrightwood has long been a friendly rest stop for Pacific Crest Trail hikers, runners and nature lovers; with many interesting shops and excellent restaurants.

The Pacific Crest Trail (PCT) is a National Scenic Trail extending 2,568 miles from Mexico to Canada. The Angeles Forest segment of the PCT extends 170 miles northwest from Wright Mountain above Wrightwood to a point south of Highway 58.

#### Acorn Trail to the Pacific Crest Trail

The AC100 Trail leaves Wrightwood via Acorn Street, ascending a steep grade, past the MariaStella camp to the left. At road's end, the Acorn Trail is a left turn, where it begins its switchback ascent 2.8 miles up to the Pacific Crest Trail.

At the PCT junction, the Race-course turns right on the PCT. From here the runner is treated to a panorama of Mt Baldy (10,760') on the left to Mt Baden-Powell (9,400') to the right. The trail stays mainly on the Blue Ridge, skirting the Mountain High Ski Areas, until it descends to the notch at Lightning Ridge's Inspiration Point. The first aid-station of the race is set up in the large parking lot with an adjacent toilet.

The runner leaves the parking lot on the PCT trail, and soon passes the Grassy Hollow NFS Visitor Center. Water can usually be found there. Keeping to the trails marked with the white steel posts and the PCT badge, Vincent Gap is 4.5 miles west after Lightning Ridge. Vincent Gap is a PCT Trail

head, with a large parking lot and adjacent toilet.

A special feature of the AC100 segment of the PCT is the climb from Vincent Gap (mile 13) to Mt. Baden-Powell (9,399 feet), the second-highest peak in the San Gabriel Mountains. The trail up Mt. Baden-Powell climbs 2,800 feet in 3.6 miles over 41 switch backs to a saddle 100 feet below the peak.

One half mile from the 9,000' summit are the first scattering of ancient Limber Pines. Up to 2,000 years old, these trees were identified in 1962 by Angeles National Forest Supervisor Sim Jarvi. Only the great Sequoias and Bristlecone pines are known to be older.

The bottom of the East Fork of the San Gabriel River may be seen more than a mile below the summit of Mt. Baden-Powell. Across this rugged chasm looms the massive peak of Mt. San Antonio ("Old Baldy", 10,064 feet), the highest peak in the San Gabriels. On a clear day, the San Gabriel Valley and other distant mountains are visible, as well as part of the Mojave Desert to the north.

From the signpost at the saddle near Mt. Baden Powell, the PCT section of the AC100 course then descends to Mt. Burnham (8,997'), Throop Peak (8,789'), and Mt. Hawkins (8,850') through Windy Gap and passes Little Jimmy Spring. This perennial

spring is a great source of fresh, cold spring water. Then past Little Jimmy Campground to Islip Saddle (6,640', mile 26), at the base of Mt. Williamson. There is a toilet at Islip Saddle.

### Mile 26: Islip Saddle

The course then heads up the trail toward Mt. Williamson (8,214') to a saddle that is within 300 feet of the peak. From the saddle, you can get a nice view of Eagle's Roost and Twin Peak. The trail then heads down Williamson to Eagle's Roost, which has a toilet.

### Mile 29.98: Eagle's Roost

At Eagle's Roost the race course follows Hwy 2 from Eagle's Roost to Buckhorn CG, then north (down) to the Pacific Crest Trail. This is due to a closure of the Yellow Legged Frog habitat. The race follows the Burkhardt Trail for 1.4 mi down to the PCT in Middle Cooper Canyon, left to Cooper Canyon CG, right turn from road/trail continues on PCT uphill, and back down to another road crossing of the access road. Staying on the PCT 1.1 mile section of the PCT to

Cloudburst Summit (7,018', mile 35). See map, page 11.

From Cloudburst Summit the course follows a gentle downhill grade and runs parallel to the Angeles Crest Highway by several springs and past Camp Glenwood (mile 41.25) until Three Points (mile 42.72), which has a toilet. From Three Points, the AC100 course leads to a cut-off trail just before Sulfur Springs Campground. Turning leftwards over the ridge, trail contours around the ridge, dropping down to cross the drainage.

The Race-course turns left on the black-top road (5N04) northbound. Follow the road as it winds gently up to Alder Saddle, the intersection of road 3N17. Continue climbing leftwards up the exposed blacktop on Road 3N17.

### Mile 49.08: Mt Hillyer

The Mt Hillyer Aid-Station is located at the top of the climb. Bear right between a set of sawed-off telephone poles set into the ground. The trail travels through trees and shrub over dirt and then open sandy terrain.

The unsigned Mt Hillyer trail ascends a slight grade, then makes a switchback up and over the knoll-like summit. The trail contours through and then descends through large sandstone boulder formations.

This portion of the Race-Course is well marked on race day, but can be tricky for the newcomer on training runs. The trail winds and then descends through large sandstone boulder formations to the Horse Flats Campground on the left side of a ridge. The Silver Moccasin Trail is rejoined at the Horse Flats Campgrounds. From there it is about 1.5 miles to the Chilao Visitor Center area.

Turn left when the trail intersects with the single-lane black-top road. Continue .5 mile past the large, tall conifer in the middle of the road. The Chilao Checkpoint will be located at the first "T" intersection to your right. Water is usually available via tap at the picnic area.

Turn right, staying on the blacktop, and pick up the trail to the right of the rest rooms and picnic areas.

### Mile 52.8: Chilao Visitor Center

The Chilao Visitor Center is located within the Charlton-Chilao Recreation Area of the Angeles National Forest on the Angeles Crest Highway. It is also adjacent (1/8 mile) to Chilao Checkpoint (mile 52) at the Chilao Picnic Area. The Center offers an introduction to the forest through a variety of exhibits, trails and activities.

## Chilao to Shortcut Saddle

The Race-course continues up over a ridge towards Chilao Campground on the Silver Moccasin Trail. Crossing the blacktop, it

skirts the campgrounds to the right.

Continue down about 1/2 mile where the trail connects to a dirt road. Bear left. This dirt road is a rolling climb up to the Charlton Flats blacktop access road. Bear left. You will pass through an open wooded area, with a the sad remains of an incinerated vintage wooden building on the left. At a picnic clearing right after a USFS pipe-gate, the trail is visible—but not obvious—off to the right. ***The course may be re-routed during the race due to fire damage and Purple Poodle Dog Bush (PPDB) encroachment.***

Contour up the slope. At the Vetter Mtn/  
Silver Moccasin trail junction, bear left.  
The Silver Moccasin trail contours along a  
wooded slope with picnic tables scattered  
under the trees. You will pass a non-  
functioning faucet.

Following the NFS trail-markings, you will be contouring across a blacktop road up to the ridge. From here you can see Shortcut Saddle and Mt Wilson in the distance. Follow the trail down the SW facing slope, across the dry creek bed and up the other side. This part of the trail is obvious and there are no

**Mile 59.3–83.75**

Shortcut Saddle to Idle Hour

turnoffs. You will switchback up through manzanita and live oak. Poison oak makes its first appearance on this slope, take care. Shortcut Saddle is about a mile up from the bottom.

#### Mile 59.3 to 67.95:

##### Shortcut to Newcomb's Saddle.

The Shortcut Checkpoint will be set up in the road-side pull-out area. The trail resumes on the other side of Highway 2. Follow the NFS trail-wands for a short distance, then bear left on the dirt road 2N23. Follow this road down into West Fork. Cross the "concrete bridge", and start the long climb up to Newcomb's Saddle. It is a long 2.5 miles to the top. At the pipe-gate, turn right on Road 2N24. Run for .4 miles, bear left at the next "Y". The aid-station is on the south-facing side of the ridge, and you won't see it until you are right on top of it.

About 100' past the Checkpoint, the trail to Newcomb's Pass is on your left. The Pass is .7 miles further. At the Junction, turn left towards Spruce Grove Campground and the Sturtevant Church Camp in Santa Anita Canyon.

##### From Newcomb's To Chantry Flats via Big Santa Anita Cyn.

The AC100 runner enters Big Santa Anita Canyon at Newcomb's Saddle, the 68 mile point on the course. Sturtevant Camp, one of the more popular San Gabriel Mountain resorts during the Great Hiking Era (1895-1938), is 2.5 miles from Newcomb's Saddle. *During training runs, water might be available at the camp, as the faucet has been shut off*, about 300 feet off the course. Three trails cross near the camp: the Gabrielino National Recreation Trail (the AC100 course), the Sturtevant Trail to Mt. Wilson, and the Mt. Zion Trail.

One of the big attractions of the Canyon are the 75' high Sturtevant Falls, a two mile hike from Chantry Flats. The falls are bypassed during the Run for safety reasons,

the runner will still be able to hear them.

Emerging from the Canyon the AC runner passes by the Lower Winter Creek trail head, crosses the steel-beamed bridge, then heads .75 mile up the paved road to Chantry Flat (mile 75).

Chantry Flat is a popular entry point for San Gabriel Mountain hikers and trail runners. Chantry has water and toilets.

As you cross the bridge looking to your right, you will see a check dam constructed of giant cement "Lincoln logs" built by the Los Angeles County Flood Control District and the Forest Service in the early 1960s. To your left you will see stands of oak, alder, willow and bay.

##### Mile 74.55: Leaving Chantry Flats via the Upper Winter Creek Trail

After leaving Chantry Flats, the AC100 runner travels uphill .5 mile on a paved road until it meets the Upper Winter Creek Trail head. The Upper Winter Creek Trail rolls uphill for 3 miles to the signed 3-way Hoegee's Junction.

The AC100 course bears left up the Winter Creek Trail towards Manzanita Ridge and the Mt. Wilson Trail for 2 miles. The trail to the right leaves the Race-course and heads down towards Hoegee's Camp.

##### Manzanita Ridge Bypass Trail to Mt Wilson (79 miles)

The AC100 course bears right on the signed Manzanita Ridge bypass trail for .85 miles until it reaches the original Manzanita Ridge/Sierra Madre Trail Jct. The Mt. Wilson Toll Road is another .5 miles beyond.

##### Mt Wilson Toll Road to Idle Hour: (83.5 miles)

The Manzanita Ridge trail section ends at the Mt Wilson Toll Road. Turn left. The Toll Road contours down on the "city" side of Mt Wilson for about 1.5 miles, when it begins its descent on the opposite side of the ridge into Idle Hour Canyon.

The Idle Hour Checkpoint is located at a switchback where the Idle Hour Trail branches right from the Toll Road, across a new wooden bridge built by AC100 Volunteers in 2001. The trail contours to your right up the slope.

Within a half-mile it summits a small saddle and begins to descend on the Idle Hour Canyon Trail. The runner will pass through the Campground and then cross two small creek drainages. *During training runs, water must be filtered or purified from open stream sources.* The trail then parallels the drainage for a short time before beginning its long rolling climb up and over several ridges and drainages to the Sam Merrill Checkpoint.

##### Mile 89.25: Sam Merrill Checkpoint

The Sam Merrill Checkpoint is located at the junction of the Mt Lowe Road, Idle-Hour Trail, Inspiration Point Road and the Middle Sam Merrill Trail.

The Middle Sam Merrill Trail bears left from the Idle-Hour Trail. It contours through manzanita, live oaks in decomposing granite formations. Shortly, Pasadena and the San Gabriel Valley vistas are visible again to the right.

The trail descends in switchbacks through exposed red sandstone to the remains of the White City and Mt. Lowe Railway. The Middle Sam Merrill trail ends in a 3-way junction with the abandoned Mt Lowe Railway bed (AC100 Race-course) and the Lower Sam Merrill Trail. Turn right, bearing right! (The Lower Sam Merrill Trail drops straight to Lake St. in Altadena!)

##### The Mt. Lowe Railway Bed (Echo Mtn) to Sunset Trail Head

Runners follow the old railroad bed at a gentle uphill grade along the Echo Mountain Trail from Echo Mountain to the Sunset Trail head (mile 91) for .8 miles.

### Sunset Trailhead to Millard (95.5 miles)

The Sunset Trailhead is less than 100 yards downhill from the Echo Mtn Trail/ Mt Lowe Rd junction. The 2.5 mile trail contours and joins the paved Mt Lowe Road to just above Millard Campground. Continue rightward on the blacktop for about 1/8 mile. Pick up the Millard Trail on your right for the next 1/2 mile down into the Millard Campground. At the bottom turn right and proceed up a shallow grade through the campground and to the Checkpoint. There is a toilet available. **During training runs, water is not available here.**

### Mile 95.5 – 100: Millard to the Finish

The runner leaves Millard Campground, crossing the shallow stream and continuing leftward on the main dirt road (Brown Mtn Rd.). This will be your last significant climb of the race. Continue on the road for a little over a mile, where you will pick up the El Prieto Trail on your left. The El Prieto Trail descends through a cactus grove and then into the trees in the El Prieto drainage. It follows a rolling downhill course up and around concrete debris dams. It will cross the creek bottom several times. At its finish the trail meets Lower Brown Mountain Rd (shown on maps as N2N70).

Proceed down the road for 150 yds, then turn left on the blacktop. From here you will stay on the pavement, crossing several bridges in the process.

About a mile from the finish, there is the last trail section on the left. The trail climbs up 100 yards above a pumping facility, where it intersects the end of W Altadena Drive. Run .3 mile to Lincoln Ave., turn left. Run north on Lincoln Ave for .2 miles. Turn right on W Palm St for .2 miles. Just before Dabney Ave, turn left into park. Run another 150 yards to the finish line.

### Mile 100.2: The Finish, Loma Alta Park.

Loma Alta Park is located at 3330 Lincoln Ave, between W. Palm St and Alta Loma Drive. The Park is accessible from both Lincoln Ave and Windsor/Arroyo exits of the 210 Freeway, the Lincoln exit is a longer drive. Head north on Windsor Ave. Turn right at Ventura Street. Drive .6 miles to Lincoln Ave. Turn left on Lincoln. Drive .7 miles north to W. Palm St. Street parking is available, as the parking lot inside the park may be full.

### Finish Line Facilities

The park is generally quiet, shady, complete with picnic areas and trees, and is generally cooler than the surrounding city.

### RVs Are Not Recommended.

Loma Alta Park has limited parking and maneuverability. It is also a functioning equestrian center. Street parking is available. Watch for parking restrictions. **Do not park in front of homes or block their driveways. You will be towed.**

### Mt Wilson Memories... by Renne Gardner

The Mt. Wilson Trail in Little Santa Anita Canyon is the oldest trail in the San Gabriel Mountains. During the Great Hiking Era, thousands of Southern Californians rode the Pacific Electric Red Cars to Sierra Madre, disembarked and hiked up this path to the popular trail resort at Orchard Camp.

Prof. Thaddeus Lowe, Civil War balloonist, man of fame and fortune, was the quintessential California dreamer. His dream was to build a railway and resort complex high above Pasadena in the San Gabriel Mountains. In the 1890s, his dream became a reality. During the height of its popularity, millions took Lowe's "Railroad to the Clouds" to fine hotels and spectacular views of Southern California.

Atop Echo Mountain was the White City with a hotel, observatory and a then the world's largest searchlight purchased from the 1893 Chicago World's Fair. From Echo Mountain tourists could board a trolley and ride another few miles to Mount Lowe Tavern at the end of the line. If you are running this section in the daylight, you will be able to see the old railroad ties and some of the concrete structures along the Echo Mountain Trail. One hundred feet to your left at the Castle Canyon Trail Junction on the Echo Mountain Trail, you will be able to see the large iron bull wheel that pulled the cars up the steep incline from Rubio Canyon. A fire swept through Echo Mountain in the early 1900's leveling all of the White City except the observatory. The foundation of Echo Mountain House and the original chalet are all that remains. The Mount Lowe Tavern burned in 1936. The railway was finally decommissioned in December 1937. All that remains of the fabled Mt Lowe tavern is a peaceful spot under old oaks and a big cone spruce next to a picnic table at the Mt Lowe Campground, just below the Mt Lowe-Idle Hour Junction, site of the Sam Merrill Aid Station.

## 4. Driving the Course

### Road Closures & Detours: Advisory

Highway 2 is currently open from La Cañada to Wrightwood. It may close at any time. If so, all crew and support will have to detour around as shown on the map. Please refer to map and directions on page 19.

The Chantry Road is open (barring fire, road-bed blockage, or administrative closure). The Adams Pack Station is a good place to buy food and drinks year-round.

### Gas Up Before You Go!

There are no gas stations or groceries on Highway 2 between La Cañada and Islip Saddle. Newcomb's Ranch may or may not be open. The alternate route is similarly lean in the mountain sections.

### Mile 0 through 59

The first portion of the Race is very straightforward. Every crew-accessible Checkpoint is located either on Highway 2 or very near to it (Chilao). The Mt Hillyer Checkpoint is not accessible. Watch for falling rocks and suddenly-appearing racing motorcycles.

### Short Cut Saddle (59) to Chantry (76): Highway 2 to I-210

Proceed west on Highway 2, following the signs to La Cañada/Flintridge. Highway 2 intersects at the 210. All gas, groceries, and meals are available here.

Get on the 210 Fwy eastbound (towards San Bernardino). You will be driving in south-easterly direction. You will pass the Windsor/Arroyo and Lincoln exits. Follow the signs for the 210 through the 210/134 interchange. Do not exit to the 134.

You are now driving east through Pasadena. Continue for 7.125 miles. Exit at Santa Anita Ave for Chantry Flats.

Exit the 210 at Santa Anita Ave. Turn left (north), under the freeway. After several lights, you will pass out of strip malls etc. into residential neighborhoods. The road to Chantry will be barred by a pipe gate. Depending on conditions, you may not be able to drive up the road.

### RVs and Mountain Roads

*No RVs to Chantry Flats (75mi).*

*There is no room. No exceptions!*

### Race Day Parking At Islip Saddle (25mi)

Parking vehicles on narrow shoulders with vehicles on or over fog lines is illegal, and a safety hazard. Our agreement with the CHP is that we not interfere with traffic in any way. The possibility of traffic accidents due to improper parking along Highway 2 must be avoided.

The following measures are in effect:

- We will place temporary No Parking signs along the narrow shoulders.

- Encourage parking at pullouts a few hundred feet BEFORE Islip Saddle and along the extra-wide shoulders, whose average width is 9 to 17ft.

### To The Finish Line From Short-Cut Saddle

Exit the 210 Freeway at the Arroyo/Windsor exit. Drive north on Windsor about 1 mile, past the Jack-In-The-Box on Woodbury.

Loma Alta Park is located at 3330 Lincoln Ave, between W. Palm St and Alta Loma Drive. The Park is accessible from both Lincoln Ave and Windsor/Arroyo exits of the 210 Freeway, the Lincoln exit is a longer drive. Head north on Windsor Ave. Turn right at Ventura Street. Drive .6 miles to Lincoln Ave. Turn left on Lincoln. Drive .7 miles north to W. Palm St. Street

### To The Finish Line From Chantry

Drive down from Chantry on Santa Anita Cyn Rd, the winding road you climbed up. At about 5 miles, you will see signs for the 210 Fwy. Get on the 210 West going back to Pasadena. Follow the 210 towards San Fernando. Exit to the right at the Arroyo/Windsor exit, approximately 2.5 miles N of the 210/134 interchange. You will see the Jack-in-The-Box at the top of the offramp.

Turn right at the top of the ramp. Drive north 1 mile on Windsor Blvd as described earlier.

Shortcut/Finish Line/Chantry Flat transitions. For Area overview detail, see page 56.

## 5. Awards

---

*Dominic Grossman 19:06:03. 2013 Angeles Crest 100, August 4 2013. Finish Line, Loma Alta Park, Altadena, CA.*

*Wally Hesseltime 31:20:32, with pacer Suzie Lister. Oldest finisher, fifth AC100 finish.*

### The Awards

The awards are presented at Loma Alta Park on Sunday during the picnic at the conclusion of the Run. The Awards for the Runners are as follows:

- Bronze Ram Award for first male and female finisher, 18 to 75 years.
- Bronze Cougar Award for first male and female finisher, 30 to 75 years.
- Bronze Rhino Award for first male and female finisher, 40 to 75 years.

### Six Races within the Overall Race:

#### *The Categories*

The Ram, Cougar, and Rhino are not traditional Age-Group Awards. Each award represents a different "Race within the Overall Race." If these were Age-Group Awards the Cougar Award would be available for the first runner who is 35 through 39, not 35 through 75. This unique awards system creates "six races within the overall race."

There are two Ram Races, two Cougar Races, two Rhino Races.

Example: If a 51 year old runner beats all the 35 year old runners, that runner automatically wins the Cougar Award (which is for 35 to 75) and the next fastest 40 year old wins the Rhino Award.

### Buckles and Plaques

- Solid Sterling Silver/14k Gold Buckle for any runner that breaks the course record. Only one buckle per finisher.
- Solid Sterling Silver Belt Buckle for all sub-24 hour finishers.
- Second Sunrise Ram Buckle: For all runners crossing the finish line by the Second Sunrise (24:00 to 25:47 hours).
- 33 Hour Ram Buckle: Solid bronze, all Finishers between 25:47 and 33 hours.
- Distinctive engraved acid-etched metal plate mounted on a solid hardwood plaque for all finishers.
- 5-color Finisher t-shirt for all finishers

### Eagle Award

For any runner who completes 10 consecutive Angeles Crest 100 Endurance Runs.

### Elk Award

For any runner who completes 10 AC100 Races (non-consecutive). You will receive credit for either the Eagle or the Elk Award but not both.

### Grizzly Award

For any runner completing 20 straight finishes, we will provide a Bronze Grizzly Award.

### Related Races and Awards:

#### Western United States

Any runner completing the Western States 100, the Leadville 100, the Wasatch 100 and the Angeles Crest 100 Mile Endurance Runs in the Western United States in the same year will be eligible for a distinctive plaque commemorating the accomplishment.

*Ram Trophy**Cougar trophy.*

### Last Great Race on Earth

Any runner completing the six designated one hundred mile endurance runs in the United States in the same year will be eligible for a distinctive plaque commemorating the accomplishment.

To be eligible, the runner must finish:

- Two races in the Eastern US: the Old Dominion and Vermont Endurance Runs.
- Two races in the Central West: the Wasatch Front 100 and Leadville 100 Endurance Runs.
- Two races in the Western US: the Western States 100 and Angeles Crest 100 Endurance Runs.

### John Muir Trail

This is not an organized event as the JMT is in a wilderness area where no organized event can be held. Runners completing the trail from Yosemite Valley to Mt. Whitney in ten days will receive a JMT t-shirt. They also may be eligible for a distinctive acid-etched stainless steel/solid walnut plaque commemorating the accomplishment. We will maintain information for others who may attempt the run and keep track of finishers.

If you are serious about running the JMT, start planning early. Topographic maps and books are available at backpacking stores.

Send specific questions and concerns regarding the JMT with a SASE to the AC100 Race Management.

### How the Awards Work...

This is the official explanation of the AC100 awards structure. First, discard traditional assumptions about “traditional” age groups.

Angeles Crest 100 Awards Structure: “Six Overall Races In The Race”

| Age Group | Ram: 18–75 | Cougar: 30–75 | Rhino: 40–75 |
|-----------|------------|---------------|--------------|
| 18-75     | 2 awards   |               |              |
| 30-75     |            | 2 awards      |              |
| 40-75     |            |               | 2 awards     |

The point of the AC100 award structure is to encourage competition by continually leveling the playing field.

- 1) All runners (18-75) can run the Ram Race.
- 2) The runner must be at least 30-75 to enter the Cougar Race
- 3) A 51 year old runner can run all of the races.
- 4) If a fast 51 year-old runner beat all of the 40 year-old runners, he wins the Rhino Award. Jussi Hamalainen did this in 1997.

Only the “overall winner” in a “traditional age group” is allowed to “race” out of their “traditional age group”. At AC100, everyone is encouraged to “race” out of their age group.

5) In the AC100 structure, if a fast senior runner beats the younger runner, then he takes their awards.

6) At AC100, we reward performance by continually leveling the playing field.

- 7) If you are are 50 and fast, you will do well here.

Elk Award: 10 non-consecutive finishes

Rhino Award: Male and Female 40 – 75.

AC100 Finisher's Plaque

Eagle Award: 10 consecutive finishes

Completion Plaque for of the Last Great Race (6 x 100)

**The**  
**JOHN MUIR TRAIL**  
**ENDURANCE RUN**  
**YOSEMITE TO MT. WHITNEY**

Completion Plaque for the John Muir Trail

Completion Plaque for the Western United States (4 x 100)

## 6. 2013 Race Team and Volunteers

---

*Hal Winton with Dennis Merkel, USFS, earned the honor of being voted the Volunteer of the Year award for all his work on the Angeles National Forest*

*Andy Morehead, 2005 Angeles Crest 100, Johnson's Field, Altadena, CA.*

**Race Director:** Ken Hamada  
**Co-Race Director:** Hal Winton: (AC100 Trail  
Volunteers Trail-Building Program)  
**Ass't Race Director:** Gary Hilliard  
**Ass't Race Director:** Jean Ho  
**Ass't Race Director:** Bill Kee  
**Medical Director:** Nick Nudell  
**Ass't Race Director/HAM:** John Minger  
**Search & Rescue Coord:** Larry Smith,  
President, Sierra Madre Search & Rescue  
**USFS Trail-Building Program:** Hal Winton  
**Training Runs:** Hal Winton  
**Ham Radio and Packet Coordinator:**  
John Minger/Steve Woo  
**Drop Bag Transportation:**  
Mountain High Ski Resort  
**Runners and Volunteers Database:**  
Andy Morehead

### **Checkpoint Coordinators**

**Inspiration Point CP:** John Marnell  
**Vincent Gap CPC:** Pat Bittenbender  
**Islip Saddle CP:** Ted Schultz  
**Eagles Roost CP:** Alicia Gross  
**Cloudburst Summit CP:** David Seres  
**Three Points CP:** Marty Minnich  
**Mt. Hillyer CP:** Brian Provost  
**Chilao CP:** Dave Emmons  
**Shortcut Saddle CP:** Bill Ramsey  
**Newcomb Saddle CP:** Mike Peralez  
**Chantry Flats CP:** Scott Cline and Bob Spears  
**Idlehour CP:** Trey Barnes  
**Sam Merrill CP:** Stuart Sherman  
**Millard CP:** Bob Adjemian  
**Finish Line Coordinator:** Bill Kee  
**Award Ceremony:** Hal Winton,  
Andy Morehead, Ken Hamada  
**Mountain Search and Rescue:**  
Sierra Madre Search and Rescue  
Altadena Search and Rescue  
Montrose Search and Rescue

*Millard Campground: Bob Adjemian is the Checkpoint Leader. People left to right: Perry Pertschar; Bob Adjemian, John Emig (ham radio) – he stayed up the whole night, as did his daughter Rebecca, Jeff Su, Susan Gibson; Rebecca Emig (asst. ham radio and graveyard-shift aid) Summer Blunden.*

*Front row L to R: Marty Minnich, Tyler McKinney, Baylen, Sue Cobb, Sasha, Bruce Cobb. Back row L to R: Tony DiTommaso, David Robison, Kris Owens, Pete McKinney, Erin McKinney, Chris DiTommaso, Jerry Shaw, Larry Young, Art Byrne, Tony Mollica*

## 7. Course Flora and Fauna

### Poodle Dog Bush

The Poodle-dog bush or Common turricula *Turricula parryi* tempts hikers with lush spikes of purple flowers that bloom between June and August.

**Poodle-dog bush causes severe irritation to the skin if touched, akin to poison oak or poison ivy. It can raise blisters lasting as long as two weeks or more.** The plant is covered in sticky hairs, which can dislodge easily and can be passed on to hikers who touch it or brush up against it. The swelling, rash and itching appear twelve hours to two days after contact. Use caution and avoid this plant.

It is found in nearly all habitat types that have recently burned including conifer forests, chaparral, oak woodland and riparian areas. Poodle-dog bush is frequently found along trails.

**Wear long sleeves and pants if you plan to visit the Angeles National Forest within the Station Fire Perimeter.**

- Grows at elevations from 100 to 2,300 meters
- Found within the Station Fire burn area perimeter
- Perennial, woody shrub
- Main stem extends up to 3 meters
- Attractive lavender bell-shaped flowers
- Unpleasant, slightly pungent odor
- Native California shrub

### Mountain Yellow-legged frogs

*(Abstracted from the LA Times article of September 16, 2012 by Louis Sahagun, Los Angeles Times)*

Efforts to save mountain yellow-legged frogs, which had been dwindling, seem to be paying off, with the fist-sized amphibians breeding in numbers not seen in decades.

To reach one of the last wild populations of the mountain yellow-legged frog on Earth, U.S. Geological Survey surveyors Adam Backlin and Elizabeth Gallegos tramped down trails, scaled cliffs and barged through nettles along a canyon deep in the San Gabriel Mountains.

Finally, the U.S. Geological Survey field biologists reached the headwaters of the Mojave River, about 15 miles west of Wrightwood. They forded pools and crawled through underbrush to net as many of the endangered frogs as possible and methodically record their vital statistics.

Recent efforts to save the frogs have included restricting public access and ridding the water of predatory trout. Now, the fist-sized amphibians are breeding in numbers not seen in decades.

When Backlin and Gallegos visited recently, several hundred adult frogs shared the knee-deep pools with hundreds of wiggling tadpoles and dime-sized babies.

“Whoa!” Backlin shouted, diving head first into a tangle of branches shading a small patch of water boiling with frogs. With one sweep of the net, he pulled out half a dozen. In less than three hours, the biologists captured 71 adults of the species scientists know as *Rana muscosa*. Fifty-two had been tagged during previous forays into the canyon. But 19 were new frogs.

In 2010, this 1.5-mile stretch of spring water and ice melt was thought to hold about five.

With skin as permeable as a mop, the species is susceptible to a skin fungus linked to amphibians vanishing around the world. And the fungus and its waterborne zoospores have been detected in mountain yellow-legged frogs.

*Batrachochytrium dendrobatidis* is a chytrid fungus first identified in 1998. It causes a thickening of the skin, which impairs gas exchange and the animal’s ability to absorb water, triggering rapid, mass die-offs.

“Exactly how these frogs are surviving the fungus is a mystery,” Backlin said. “One theory is that after the fungus first swept through the San Gabriels in the 1960s — wiping out up to 90% of the entire frog population — survivors somehow developed an immunity.” Biologists will study possible defense mechanisms as they search for a cure to the fungus.

The life and times of mountain yellow-legged frogs embody the challenges facing species — and wildlife biologists — in Southern California. For thousands of years, the frogs thrived in almost all of the creeks cascading down the San Bernardino, San Gabriel and San Jacinto mountains.

Since the 1960s, however, the species has been decimated by fires, mudslides, pesticides, fungal infections and loss of habitat, as well as the appetites of garter snakes, raccoons and nonnative fish, bullfrogs and crayfish.

**Recent efforts by zoos in Los Angeles, San Diego and Fresno to reintroduce captive-bred frogs into their ancestral haunts have had limited success.**

For the time being, the creation of trout-free zones in hard-to-reach streams is one of the most effective survival strategies.

Usually found on sunny banks and rocks near riffles, the 3-inch-long frogs are named for the bright yellow extending from the undersides of the hind legs onto the lower abdomen.

“Amphibians in general, and frogs in particular, are resilient — if you give them a chance, they rebound,” said Sam Sweet, professor of ecology and evolution at UC Santa Barbara. “One reason they produce huge numbers of eggs is that life is so uncertain for an egg or tadpole. All those eggs compensate for years when creeks dry up, or predators and disease move in and wipe them all out.”

Today, fewer than 200 are believed to exist in nine isolated wild populations, including a group in the San Gabriel Mountains’ Devils Canyon that survived the devastating Station fire.

### Poison Oak

Poison oak is distinctive by its triple leaf pattern with prominent veins and shiny surface. In the summer, leaves are yellowish-green, pink, or reddish, with small white or tan berries. In the fall, the leaves turn bright red or russet brown.

Poison oak is prevalent on the Upper Winter Creek Trail between Chantry Flats and Manzanita Ridge before the Wilson Toll Road. It reappears in Idle Hour Canyon, especially at the bottom. The next occurrences are on the Sunset Trail going into Millard Campground.

If you contact poison oak: wash with Fels-Naptha soap and cold water immediately, or Tecnu solvent, or generous floods of rubbing alcohol in a pinch. These may remove enough of the oil and save you from a major outbreak. Avoiding hot showers for 24 hours after exposure may reduce the degree of irritation.

### Rattlesnakes

The Southern Pacific Rattlesnake is the most common rattlesnake inhabiting the San Gabriel Mountains. Average adult size is from 3 to 4 feet, but they may reach 5 feet. The rattlesnake usually announces itself by its distinctive rattle.

In the summer, the snakes are more active in the evening and morning, avoiding the mid-day heat.

Rattlesnakes have no external ears and have poor eyesight, but they do pick up ground tremors and have a keen sense of smell. This is how they can detect your presence from a distance.

A rattlesnake will generally withdraw or try to escape when encountered. But if it is cornered, teased or stepped on, it will fight.

***Rattlesnakes are occasionally sighted during the Run. To reduce risk: STAY ON THE MAINTAINED TRAILS.***

Once you're bitten, rattlesnake venom's primary course is through tissue, not the bloodstream. The venom is quite viscous and elements in the toxin break down tissue as it proceeds.

***Hikers and runners are advised to move.*** Walking out, even with a leg bite, is much better than waiting for a companion to reach civilization and then coming back to get you. The longer you wait to get help, the more tissue can be destroyed.

***Call 911 and ask for help for transport but keep moving out towards a road or a place where you get signal.*** If you are bitten on your hand or arm, keep that arm (hand, etc.) in a heart-neutral position. In other words, do not hold your arm above your head or keep your hand below your heart but rather try to hold your arm so the bite area is level with your heart.

Don't try to catch the snake and kill it. If you find yourself suddenly very close to a snake and the snake is moving along and away from you, just stop and do not move at all OR if you cannot stand to do that, take a very large step backwards and away from the snake. Most rattlesnakes are shorter than 3-1/2-4' and a good long step backwards will put you out of range should the snake feel cornered/threatened and turn to strike at you.

### Black Bears

Two kinds of black bear inhabit California: the northwestern black bear and the Sierra Nevada black bear. They have not been hunted extensively in the state.

Black bears aren't just black. Their colors range from black and dark brown to cinnamon, light brown, and even yellow and bluish hues. Often cubs of one litter will be different colors.

Black bears eat everything: vegetation, berries, insects, honey, carrion, fish, frogs, fruit and nuts. In overpopulated areas, bears will eat tree bark, damaging second growth timber. While they don't normally prey on

game or domestic livestock, they have been known to kill other animals.

The adult bear normally weighs between 200 and 300 pounds. The largest black bear in California on record weighed 498 pounds.

Mating season is in June. That's the only time male bears are with females. Females initially breed at three years of age, then every other year. The gestation period is about 7 1/2 months.

Bears den up and sleep during the winter, living off their stored fat. The young are born during this dormant period, usually in January. They are born blind and weigh only six to eight ounces.

While bears appear clumsy with their flat footed, shuffling gait, they can travel fast and climb trees with ease. Bears tend to be nocturnal, but can be seen in the day.

### Mountain Lions Sightings

Mountain lions have been sighted in local foothills. A healthy mountain lion population coupled with habitat loss are among the reasons for increased sightings. **Less than forty Americans have been killed by mountain lions, and approximately thirty have been injured. Compare this to an average of 40,000 deaths per year from highway fatalities.**

Throughout the West, mountain lions are now classified as game animals, which means hunting is regulated to prevent excessive "harvest." In addition, in 1989, Californians passed a law that gives the cats full protection from hunting. This law also mandated special funding to protect their habitat.

These measures worked. Most observers agree that there are now more mountain lions in the West than there were 20 or even 50 years ago. One indication is the attacks on humans.

Like other big cats, mountain lions specialize in killing large mammals with hooves, primarily deer and elk. They're also able to live on smaller prey.

A human standing up is not the right shape for a cat's prey. An erect person's head and neck are in the wrong place. Most adult humans are taller than typical lion's prey. The location of the neck is the most important, for that's where the cat bites to kill. When a bear encounters a big cat, it stands up in a defensive mode. A person sitting, squatting or bending over looks a lot like four-legged prey. So standing up, facing the mountain lion, not running away, making a lot of noise, and putting on a face, may deter big cat attacks.

*Station Fire aftermath: panorama looking east from Mt Wilson, CA. Sept 2010*

### **Bighorn Sheep**

Bighorn sheep, like mountain goats and caribou, are a wilderness species intolerant of human disturbance.

Adult rams usually weigh up to 140 pounds. Prime animals weigh 200 pounds or more. The head and horns alone may be over 30 pounds in large specimens. Ewes are much smaller and lighter.

Male and female bighorn grow horns they never shed. Growth rings on the horns indicate the animal's age. Ewe horns are erect and flat, measuring up to 10 inches long on adults. Mature rams have round, curving horns which may be a half circle, three-quarters, or even a full circle. The horns on a two-year-old ram look like ewe horns. At three years of age, rams are distinguished from ewes by larger, more curled horns.

Bighorns live up to 17 years. Their life span depends on range conditions. For most of the year, bighorns divide into ewe bands and ram bands. During breeding season (October through December), they gather into mixed groups. Females breed at 18 months. The gestation period is about six months. Lambs are born in April and early May, usually as singles—twins are uncommon. Lambs are completely weaned at four to five months of age.

Bighorn sheep can go a long time without water, and may range as far as 20 miles from the closest water source. Adults seldom come to water while on green, succulent feed. Lambs never come to water while nursing.

In the summer, California bighorn scatter in high mountain country above timberline. They migrate down in the fall to spend the There are an estimated 2,000 to 2,500 bighorn in California, throughout the San Gabriel Mountains, Death Valley National

Monument, and Joshua Tree National Monument.

### **Deer in the San Gabriels**

There are five kinds of mule deer in California, all considered to be members of the same species, *Odocoileus hemionus*. They are: Columbian black-tailed deer, California mule deer, Rocky Mountain mule deer, Southern mule deer, and the burro mule deer.

Deer are primarily browsing animals. They eat twigs, buds, and leaves of shrubs and trees. They also rely on acorns in some areas. In the spring and fall they will eat grasses, weeds and other green herbaceous plants.

Deer have keen hearing. Air movement governs its sense of smell. Deer have poor vision for stationary objects but are quick to catch motion.

Bucks alone have antlers. Antlers are shed every year in midwinter and the bucks go bare-headed until a new set starts to grow in early spring. They grow anew each year.

The size of the antlers and the number of points on each side generally increase as the deer progresses toward maturity, after which the number of points may be less numerous in old age. However, both size and the number of points may vary with the diet, particularly in the first year of life. A yearling on good feed may have three-point antlers and a three-year-old on poor feed may wear only spikes. An adult buck in the prime of life ordinarily has four points on each side. Antlers are unreliable as indicators of age. Age can be determined only by tooth development and wear.

Both bucks and does have reddish coats during the summer, but their colors change to gray in the fall as the long hairs of their coats grow out to form the winter pelage. Fawns are born with spotted coats but lose

the spots about 8 to 10 weeks after birth, or about the time they are weaned.

In California, deer seldom breed before they are 16 to 18 months old. The necks of the bucks become swollen several weeks before the actual breeding season and remain so until the breeding activity subsides. Does may have as many as three separate breeding periods during the season, spaced about 28 days apart.

If they fail to breed during the first period, they may breed during the second or third period.

Breeding seasons vary with elevation and latitude, but are generally timed so that the young are born during the time of the year when green herbaceous feed is available. The does carry their young for 195-210 days or about seven months and commonly bear single fawns.

The peak of the fawning season varies throughout the State, from early April in parts of coastal California to mid-July in the Sierra Nevada. Some fawns are born earlier and some are born later than the peak periods. Fawns are usually weaned about 60 to 90 days after birth.

The California mule deer is the second most abundant subspecies of deer in the State and is found in abundance in the San Gabriel Mountains.

The animal is migratory except in coastal Southern California and foothill areas where snow does not cause range shifts. The breeding season occurs in October or November in areas along the coast, but extends as late as mid-December in high mountain ranges in the interior.

2004: Andy Jones-Wilkins [center] is flanked by his two pacers Bruce Hoff [left], and Andy Roth [right]. Roth paced from 50-75 miles, Bruce from 75 to 100. Roth took a shower and changed in the 6+ hr interval. Andy Jones-Wilkins is looking a little green. Little did anyone know that he would be in an ICU within 3 hrs due to rhabdo. He survived, and is back in the pink.

## 10. Trail Work 2013

---

*Group shot at the end of the day. Hal Winton and the AC100 Volunteer Trail work. First outing of the season—the eastern Idle Hour Trail section.*

The 2013 Trail Work season opener was on the east side of the Idle Hour Trail. Tools were distributed with a concise safety demonstration. Groups were distributed along the length of the trail cutting back manzanita, poison oak, clearing debris, and brushing as needed.

The next outing was the Idle Hour Trail west side, followed by the Upper Winter Creek Trail down to the Hoegee's Junction.

The final outing to Newcomb's Saddle was an obstacle-course drive-in from Red Box, complete with downed trees, overhead-high Purple Poodle Dog Bush, razor-sharp rocks that were just dying to punch a hole in either your oil pan, or razor a tire. Hal found that one, had to change a tire, and eventually we arrived. The crew was distributed down the trail, almost to the Sturtevant Camp junction.

As the pictures show, everybody had a good time, nobody got hurt, and work was accomplished.

*Composited portrait of the Angeles Crest 100 Trail Volunteer group, Newcomb's Pass & Saddle area of the Gabrielino Trail. Sat, July 20, 2013. Hal Winton, crew boss.*

*Panoramic composited group shot. Hal Winton and the AC100 Volunteer Trail work. Third outing of the 2013 season, June 15 2013—the Upper Winter Creek section below Harvard Saddle on Mt Wilson. They jumped off from the Mt Wilson Toll Road.*

## 11. The AC100 and the Pleasant View Ridge Wilderness Problem

Angeles Crest 100-Mile Endurance Run  
Route From Mt Baden-Powell to Chilao Flats  
with approaches to Shortcut Saddle

Pleasant View Ridge Proposed Wilderness  
Angeles National Forest  
This map prepared at the request of Senator Boxer, December 16, 2008

Map showing Wilderness designation, and AC100 Race course. February, 2011

The AC100 was facing two access problems in recent years. First, the closure of the Pacific Crest Trail (PCT) in Cooper Canyon due to the Yellow Legged Mountain Frog critical habitat study (2007), and the recent designation of the Pleasant View Ridge (PVR) Wilderness in 2009.

The Angeles National Forest (ANF) US Forest Service (USFS) Wilderness Manager let us know that the FS rules for the Pleasant View Wilderness would exclude the AC100 run from passing through the demarcated area.

We now have wilderness on both sides of Hwy 2. We went to work on a solution to this problem immediately. A way was needed to keep our run course on the PCT on less than 10 miles of the wilderness, extending from from Isip Saddle (26 miles) to Sulfur Springs camp (46 miles).

We remembered that the Western States Endurance Run/Tevis Cup Ride had a similar problem with the Granite Chief Wilderness Area in 1984, which affected four miles of the

WSER100 course.

To illustrate the scope of the situation, To quote Bryon Powell, writing in "Racing and Politics: Trail running races in Wilderness Areas" (Running Times Magazine/December 2009)

*In the U.S., wilderness areas are federal lands administered under the Wilderness Act of 1964 that are managed more conservatively than other federal lands. Such areas can be independent of other federal designations or be a portion of another federal land designation such as a national park, national monument, national forest, etc. There is no single agency that governs wilderness areas. Rather, agencies such as the National Park Service (NPS), Bureau of Land Management, Fish and Wildlife Service, and U.S. Forest Service oversee these lands.*

*The Wilderness Act severely restricts the use of designated lands, barring "commercial enterprises," permanent roads, and except as needed for the administration of the land, all temporary roads, the use of motor vehicles, motorized equipment, or mechanical transport, and any structure or installation within the area. It also provides guidance as to how the federal agencies should administer them: "These [wilderness areas] shall be administered for the use and enjoyment of the American people in such manner as will leave them unimpaired for future use and enjoyment as wilderness, and so as to provide for the protection of these areas, [and] the preservation of their wilderness character." According to Rossmann, who is also a land-use attorney, while the NPS was originally*

Detail of Map showing Wilderness designation, and AC100 Race course. February, 2011

*flexible about allowing trail races to pass through wilderness areas, the Forest Service barred organized activities on the basis that solitude was an integral part of the wilderness experience. This stance of the Forest Service struck at the heart of American ultrarunning when the California Wilderness Act of 1984 created the Granite Chief Wilderness Area, an area that included four miles of the Western States 100 course.*

This led us to attorney Tony Rossman (Land/Water Use), ultrarunner and long time trail advocate. Rossman was willing to write language for our AC100 Run alongside the WSER text for a congressional bill.

Rossman also recommended that we get support from Congressman Buck McKeon (R-Santa Clarita), the author/sponsor of the original bill. McKeon and Bob Haueter, his chief of staff, drafted the original PVR Wilderness

Heritage bill, which was rolled into Senator Boxer's 2009 Omnibus Wilderness bill. In conversation Bob was fully supportive of the AC100, as long as Senator Boxer's people were agreeable.

Tony Rossman sent our large detailed colored map, showing clearly the PCT/AC100 course in the PVR Wilderness along its southern boundary, to Senator Boxer's office. This map was forwarded to Boxer's California Director Tom Bohigian in Fresno for him to resolve. After Tom got up to speed we talked and he was also fully supportive of our cause. He is also looking into a simpler way by an administrative solution to the matter.

We've kept our the Los Angeles River Ranger District (LARRD) Ranger Mike McIntyre (who issues our special use permit for the run) informed all along the way. He agrees with what we are doing, and that we have good reason to believe that the AC100 will be allowed to use the

PCT/AC100 course in the PVR Wilderness, as we have since 1986.

The AC100 run and organization is now 25 years old (at time of writing), with hundreds of volunteers of all kinds and skills on race weekend. The AC100 Run also brings dollars into our local communities for transportation systems, lodging and supplies. AC100 runners/volunteers/trail workers help maintain the forest trails (~1,000 hrs/yr on our run course alone), which is a huge plus with the USFS.

In summary: the Run has become a recognized and valued contribution to recreation and the economies on the Angeles Crest, and in foothill communities of the San Gabriel Mountains in the Angeles National Forest. We are working hard at all levels to continue the AC100 run as it has been in the forest since 1986, and into the future years.

## 14. The 2009 Station Fire: Holocaust of the Angeles Crest

*The 2009 Station Fire's effect on the Angeles Crest 100 Race Course*

### The 2009 Station Fire Overview

The Station Fire began on August 26, 2009 and burned out of control for over six weeks. Full containment was not declared until October 16, 2009. The fire consumed 160,577 acres (251 sq mi), destroyed 209 structures, including 89 homes.

The fire started in the Angeles National Forest near the U.S. Forest Service ranger station on the Angeles Crest Highway (State Highway 2), approximately 4 miles north of La Cañada.

The blaze threatened 12,000 structures in the National Forest and the nearby communities of La Cañada Flintridge, Glendale, Acton, La Crescenta, Littlerock and Altadena, as well as the Sunland and Tujunga neighborhoods of the City of Los Angeles. Many of these areas faced mandatory evacuations as the flames drew near, but as of September 6, all evacuation orders were lifted. The Station Fire burned up the western slopes of Mount Wilson, threatening numerous television, radio

and cellular telephone antennas on the summit. Also threatened were the Mount Wilson Observatory, which includes several historically significant telescopes and multi-million-dollar astronomical facilities operated by UCLA, USC, UC Berkeley and Georgia State University.

A 40-mile stretch of the Angeles Crest Highway from La Cañada to Upper Big Tujunga Cyn was closed indefinitely due to guardrail and sign damage, although the pavement remained largely intact.

On September 3, 2009, officials announced that the Station Fire was caused by arson, and that a homicide investigation had been initiated.

The Station Fire claimed the lives of two Los Angeles County firefighters who were killed when their vehicle left the roadway due to heavy smoke conditions. The two firefighters had been assigned to a fire inmate hand crew camp (jointly operated by the Los Angeles County Fire Department and California Department of Corrections) had

been searching for a safe escape zone to help evacuate the camp's inmate crews who were being forced to evacuate due to the Station Fire threatening the camp.

As of September 15, \$93.8 million had been spent fighting the fire at 91% contained with full containment by September 19. It was 100% contained at 7:00 P.M. PST on Friday, October 16, 2009, due to moderate rainfall.

Property owners and concerned citizens are demanding a formal Congressional investigation as to why the U.S. Forest Service did not contain the fire within the first 48 hours when it was manageable.

The long-term losses of old-growth forests, all animal species, insects, birds and reptiles are only beginning to be calculated. At 160,557 acres, the Station Fire is the 10th largest in modern California history, and the largest wildfire in the modern history of Los Angeles County, passing the 105,000-acre (164 sq mi) Clampitt Fire of September 1970.

*The Station Fire, Day 5, from Griffith Park, 15 miles south of the blaze. The blaze created its own towering pyrocumulus cloud, generating fierce updrafts and near-nuclear vortexes that were unstoppable. All the firefighters could do was to shape the blaze, and hold on desperately to key points like the Mt. Wilson complex. On September 10 it was feared that Mt Wilson was lost, but it wasn't.*

*Station Fire aftermath, November 2009. View to the west from the Rincon-Red Box Road to the Hwy 2-Mt. Wilson Rd junction.*

## 100 Miles in the Mountains — Comparing the Ups and Downs

We like to print course profiles in *UR* to give an idea of how severe the terrain is. While terrain is only one factor determining the overall difficulty — weather, altitude, footing, and availability of aid can all significantly add to or lessen the challenge — it still is the factor that somehow seems to linger the longest in our memories. The canyons at Western States, Leadville's Hope Pass, the climb to Sherman's Gap at Old Dominion, the first five miles at Wasatch, and the last thirty at Angeles Crest . . .

Usually we print just one profile at a

time, which makes it difficult to compare courses. So it seemed time to do several at once to see how they stacked up visually against each other. In addition, we've listed the climb and drop for each course. This is estimated of course (it depends on how many of the little "bumps" you count), but it does give a reasonably accurate total for the vertical.

The profiles look pretty impressive, both for the amount of climb and the amount of downhill running that you had best be trained for. They look even more impressive

when compared to a course commonly accepted to have some pretty tough hills — the Boston Marathon. Heartbreak Hill looks rather tame.

Finally, lest all you trail runners start looking down at road and track runners as a bunch of wimps, one more 100-mile course is actually represented on the chart. That's the New York 100 Mile course at Shea Stadium: flat and at sea level, just like the base line on the chart. And it is a course that over the years has had one of the lowest finishing rates of any ultra. Any track would be just as flat and just as easy, one might guess, but any 24-hour run will have evidence of runners who have suffered greatly.

Hills offer a change of pace and a change of the stresses on your body. Hard as hills may seem while you're doing them, they may actually make for an easier course.

Southern California ultra runners mourn the news of Garry Curry's unexpected death June 1. He died in his sleep at his home in Hermosa Beach, CA. He'd done a run up on the Crest the day before with Brent Speers and Willard Weston, with no sign of ailment or distress.

Garry had been a steady presence for well over 30 years—cheerfully spanning both the sub-24 and DFL brackets. Twenty five straight finishes at the Leadville Trail 100, and 26 straight at the Angeles Crest 100.

Larger than his considerable ultra-achievements, Garry was a low-key modest giant who would stop and help people unasked, with a singular generosity. Never one to brag or boast, but ready with a steady hand and an open heart. He led by example. There are many who saw Garry do something, and decided that it must be fun or worthwhile; ultras, pursuing an education, and community service.

When I did my first AC100 in '91, Garry was already in legend territory, modestly towering over us newbie ankle-biters who wanted a slice of the AC. Reputations and personae erode, not Garry. In later years he humored me when I'd drag him in front of the backdrop for his finisher portrait. I finally got him to take off his dark glasses, and he was a sport about it.

Last time I saw Garry was up on 2, moving fast, flagging the Islip Saddle - Chilao section for that AC100 training run. While sweeping the course off the top of Mt Hillyer, it was notable how he'd marked that section—spare, and concise. It was flagged only at the point you needed to turn. I found it moving then, and poignant now. In such silence so much can be said.

Brent Speers knew Garry from the time he was a boy in Wrightwood, back in 1963. They both grew up, and being a small town they knew each other well. They were competitive with all the available sports. He recalled that Garry's example prompted him to make lifestyle changes, and he got into running.

Garry introduced Brent to ultras in 1999, Brent had already run marathons when Garry asked him to pace him 50 miles from Chilao to the finish. At Newcomb's, Garry was wildly sick. Brent was stunned by this, but heartened by Garry's offhand comment "Welcome to ultras, Brent".

Ethan Newberry: As a newer member to this AC community, I didn't think I had the honor of meeting Garry. Turns out we

*Garry Curry 29:46:35, 26 out of 26 finishes. 2013 Angeles Crest 100, August 4 2013.*

shared a car ride back to Islip from Chilao after the recent AC training run. The car of sweaty, exhausted dudes casually tossed stories of the day's accomplishments around and the question came up if any of us had run AC before. The gentleman next to me said he had so we prodded him for more tips and info. We found out not only had he run every AC, but also every Leadville. We couldn't get enough and he indulged all our questions like a champ. In that short 20min I gathered that the man I sat next to was not only passionate about these races, these people, this sport and all it's history, but also those who were new to the club. When we all parted, I figured there would be another training run or perhaps I would run into this guy on the trails again and get the chance to get more pro-tips from the legend. I'm very sad to hear of Garry's passing. He seemed like the very best.

Dave Emmons wrote on the AC100 page: "I was pacing Barb Elia in 97? And we got to the top of Manzanita and there was Gary sitting on the side of the trail. "You OK Gary"

I asked. "Yeah, just watching the sunrise". The essence of ultra coolness. I will always remember that moment."

I challenge Strava to capture that joy.

Garry Dean Curry, 1954-2014.

Rest in peace.
